

How to handle HVAC Service while navigating COVID-19

Let's take a minute to think about the people that can't work from home. Schomburg Heating & Cooling is amongst that group. It is our job to keep the air in your home clean and comfortable, the food in your refrigerator cold and free from bacteria, and your water heaters in optimal working order to destroy the spread of germs and contaminants.

Schomburg Heating & Cooling will be on the front lines of defense for your home and business during this pandemic.

When inviting a service provider to your home, it is your responsibility to provide for them a safe environment. It's best to follow the CDC guidelines, that can be found at, <https://www.cdc.gov/coronavirus/2019-ncov/index.html>
